(born October 25, 1984, Santa Barbara, California, U.S.) is an American pop singer who gained fame for a string of anthemic and often sexually suggestive hit songs, as well as for a playfully cartoonish sense of style. Her popular singles include "I Kissed a Girl," "Last Friday Night (T.G.I.F.)," "Roar," and "Rise." Katy Hudson was raised in southern
California, the middle child of two itinerant born-again Christian ministers. Nonreligious music was forbidden in the Hudson household, and she grew up singing church hymns and gospel tunes. As a teenager, she learned to play the guitar and sought a musical career in Nashville with a Christian record label, but her debut album, the gospel-
 influenced Katy Hudson (2001), sold poorly. By then, however, Hudson had found new musical models in such rock artists as Freddie Mercury and Alanis Morissette, whom she had discovered through friends. She soon moved to Los Angeles to pursue success in the secular music realm, adopting her mother's maiden name, Perry, to avoid confusion
 with the actress Kate Hudson. Perry's initial efforts at mainstream stardom were fruitless, with two separate record labels signing and subsequently dropping her before any material was released. In 2007, however, Capitol Records put out Perry's EP Ur So Gay, which attracted modest attention for its cheerfully flippant title track. She made a
greater splash several months later with the single "I Kissed a Girl," an assertive ode to sexual curiosity backed by a hard-edged electro-pop beat. The song quickly stirred controversy, as some critics derided it for promoting same-sex relations and others charged that the racy scenario it depicted catered to male fantasies of female sexuality.
Nevertheless, the combination of titillation and polished melodicism helped "I Kissed a Girl" become a number one hit in multiple countries, powering sales for her album—much of which Perry wrote herself—eventually registered
sales of more than three million copies in the United States. By late 2009 Perry had become frequent tabloid fodder, largely because of her quirky, vividly colored fashions—which borrowed variously from 1940s pinup models, burlesque performers, and the kawaii ("cute") cultural aesthetic of Japan—as well as her high-profile relationship with English
comedian Russell Brand, to whom she was briefly married (2010-12). After recording the stripped-down live album MTV Unplugged (2009), Perry returned to the studio. The resulting release, Teenage Dream (2010), which provided a broader showcase for her full-throated voice, was even more commercially successful than One of the Boys, spawning
such hits as the warm-weather frivolity "California Gurls" (featuring rapper Snoop Dogg) and the inspirational "Firework." When "Last Friday Night (T.G.I.F.)" reached the top of the Billboard Hot 100 chart in mid-2011, Perry tied Michael Jackson's record of five number one songs from a single album. Perry maintained her grip on the mainstream
 with her next release, Prism (2013), which produced, among other hits, the anthemic "Roar." Her 2016 single "Rise" was featured in television coverage of that year's Olympic Games in Rio de Janeiro. Perry's fifth studio album, Witness (2017), more introspective than her earlier work, was less well received. She returned to mainstream pop with the
empowerment-oriented Smile (2020). Perry later released 143(2024), which was notable for its negative reviews. While critics often disparaged Perry's songs as vapid, the music industry was generally kinder, rewarding her with several Grammy Award nominations, including album of the year for Teenage Dream. In 2011 she made her big-screen
acting debut, providing the voice of Smurfette in the film The Smurfs, and she reprised the role for a 2013 sequel. She was also the subject of the 3-D concert-tour documentary Katy Perry was one of the judges on the new incarnation of the singing competition TV show American Idol. In April 2025 Perry
was one of six passengers on an all-female commercial spaceflight on Amazon founder Jeff Bezos's Blue Origin rocket. During the 11-minute flight, Perry sang Louis Armstrong's classic "What a Wonderful World" to her fellow space tourists, which included journalist Gayle King and former National Aeronautics and Space Administration rocket
 scientist Aisha Bowe. Following her marriage (2010-12) to Russell Brand, Perry became engaged to actor Orlando Bloom in 2018. Two years later, they had a daughter. John M.
