Coding Guidelines (7 questions) The questions in this section assess your understanding and expertise of the ICD-10-CM Official Guidelines for Coding and Reporting, CPT coding guidelines and parenthetical notes, and modifier use.17. Compliance and Regulatory (3 questions) The questions in this section evaluate your knowledge of compliance and regulations that pertain to the following:Services covered under Medicare Parts A, B, C, and DPayment codingPlace of service reportingFraud and abuseNCCI editsNCD/LCDHIPAAABNsRVUs18. Cases (10 questions) Ten cases are presented to evaluate your ability to code medical record documentation accurately. These cases may also test your knowledge of medical terminology, anatomy, compliance, and regulatory information.Check Out Mometrix's CPC Study GuideGet practice questions, video tutorials, and detailed study lessons Get Your Study Guide CPC Online Prep CourseIf you want to be fully prepared, Mometrix offers an online CPC prep course designed to give you everything you need to succeed!Here's what you'll find in the CPC course:30+ Review Lessons Covering Every Topic400 CPC Practice Questions250+ Digital FlashcardsMoney-back GuaranteeMobile AccessEveryone learns differently, so we've tailored the CPC online prep course to ensure every learner has what they need to prepare for the CPC exam.Click below to check it out!Start Your CPC Online CourseRegistrationTo register for the exam, you must be an AAPC member, which costs $190 ($125 for students). Once you have joined AAPC, you can use your account to register for the exam.The exam itself costs $349 for one attempt or $449 for two. If you paid to take the test twice but you pass the exam on the first take, you do not get a refund of the money spent on the second attempt.Test DayWhen you register, you will have the option to choose in-person testing or remote testing (LPR).There are similarities between these two methods when it comes to the day of the exam. Both formats require a current, valid, government-issued form of identification. Both ways also allow you to bring a basic manual calculator and handwritten notes specific to daily coding activities. Additionally, you are allowed three reference booksThe AMA Professional edition of the CPTYour choice of the ICD-10-CM Official Guidelines with highlighting, underlining, and brief notations needed for day-to-day codingYour choice of HCPCS Level IIKeep in mind that the exam questions are based on the current calendar year's code sets, and you might be disadvantaged in using prior publications.There are similarities in the disallowed items as well. You are not allowed to bring electronic devices with an on/off switch, devices capable of capturing and storing images, study guides, Procedural Coding Expert, CPT Plus! - PMIC, CPT Insider's View – AMA, or the ICD-10-CM Easy Coder.In-person TestingOn the day of your exam, you should arrive 15-30 minutes early at your exam location. You must also bring your photo ID, two No. 2 pencils, an eraser, a manual calculator, and your coding books and references. Keep your belongings in your car or at home; you are not allowed to bring anything not approved into the testing center.After you show your ID to the testing center administrator, you will be directed to your testing station. You will complete a familiarization tutorial there, and your exam begins when you are finished with the tutorial.You can take breaks during the exam period, but you will not regain the time you lose on your break.Live Remote ProctoringYou will need to log in to the testing environment 5-10 minutes before your appointment time. By logging in early, you can troubleshoot issues like connecting to the testing platform, microphone issues, lagging internet, etc.When your proctor signs on, present your government-issued photo ID. Then, rotate your camera around your space for the proctor's approval. When your area is approved, replace your webcam, ensuring your face, fingers, keyboard, and keyboard area are always in the frame. Once the webcam is back in place, you cannot move out of its view.A bottle of water, two No. 2 pencils, an eraser, a sheet of blank paper, approved reference materials, and a manual calculator are all allowed to be on your desk.Exam ScoringYou need to answer 70 questions correctly to pass the exam. The correct answers are worth 1 point each, and they are combined to calculate your final score. Your results are released to your AAPC account seven to ten days after you take the exam. If you do not receive your test results after ten days, contact AAPC for guidance.If you did not pass the exam, you can register to retake the exam. If you paid for the two-test bundle, there is no additional fee. If you did not pay for the two-test bundle, you would pay the $349 test registration fee.You can take the exam as often as needed, but you will pay the full registration fee each time.Check Out Mometrix's CPC FlashcardsGet complex subjects broken down into easily understandable concepts Get Your Flashcards How to Study EffectivelyYour success on CPC test day depends not only on how many hours you put into preparing but also on whether you prepared the right way. It's good to check along the way to see whether your studying is paying off. One of the most effective ways to do this is by taking CPC practice tests to evaluate your progress. Practice tests are useful because they show exactly where you need to improve. Every time you take a free CPC exam practice test, pay special attention to these three groups of questions:The questions you got wrongThe ones you had to guess on, even if you guessed rightThe ones you found difficult or slow to work throughThis will show you exactly what your weak areas are and where you need to devote more study time. Ask yourself why each of these questions gave you trouble. Was it because you didn't understand the material? Was it because you didn't remember the vocabulary? Do you need more repetitions on this type of question to build speed and confidence? Dig into those questions and figure out how you can strengthen your weak areas as you go back to review the material.Answer ExplanationsAdditionally, many CPC practice tests have a section explaining the answer choices. It can be tempting to read the explanation and think that you now have a good understanding of the concept. However, an explanation likely only covers part of the question's broader context. Even if the explanation makes sense, go back and investigate every concept related to the question until you're positive you have a thorough understanding.Comprehend Each TopicAs you go along, keep in mind that the CPC practice test is just that: practice. Memorizing these questions and answers will not be very helpful on the actual test because it is unlikely to have any of the same exact questions. If you only know the right answers to the sample questions, you won't be prepared for the real thing. Study the concepts until you understand them fully, and then you'll be able to answer any question that shows up on the test.Strategy for CPC PracticeWhen you're ready to start taking practice tests, follow this strategy:Remove Limitations. Take the first test with no time constraints and with your notes and CPC study guide handy. Take your time and focus on applying the strategies you've learned.Time Yourself. Take the second practice test "open book" as well, but set a timer and practice pacing yourself to finish in time.Simulate Test Day. Take any other practice tests as if it were test day. Set a timer and put away your study materials. Sit at a table or desk in a quiet room, imagine yourself at the testing center, and answer questions as quickly and accurately as possible.Keep Practicing. Keep taking practice tests on a regular basis until you run out of practice tests or it's time for the actual test. Your mind will be ready for the schedule and stress of test day, and you'll be able to focus on recalling the material you've learned.FAQs Welcome to our first full-length, free CPC practice exam! We've designed this test to be as close to the AAPC exam as possible, to help you get the most realistic and helpful practice and feedback possible. Read on to learn how to use it for best results, or click here to skip down to the test questions and get started.Or, download the exam as a PDF below:The CPC Exam has 100 questions from 17 categoriesThe exam is composed of 100 questions, drawn from the same 17 medical billing and coding categories you will see on the actual exam:CPT 10000 - Integumentary System (Skin, nails, hair)CPT 20000 - Musculoskeletal SystemCPT 30000 - Respiratory SystemCPT 40000 - DigestiveCPT 50000 - Reproductive/Urinary systemAnesthesiaRadiologyLab pathology (Panels, drug testing, chemistry, transfusions Medical specialties (Immunizations, psychiatry, ophthalmology, cardiovascular, pulmonary, genetics, chemotherapy)Medical TerminologyAnatomy & PhysiologyHCPCS Level II (Medicare-related codes)ICD-10-CM CodingCoding Guidelines (both ICD & CPT)Compliance and Regulations (Medicare, HIPAA, national/local coverage, reimbursement, and RVUs)Healthcare Law & EthicsHow long is the CPC exam?The 2023 CPC exam is 4 hours long, done in 1 sitting. You can start and stop the exam at any time, and your progress will be automatically saved.How can I get the best results from this practice exam?On the real CPC, you'll be either in your own personal space, taking the exam on a video call with the rest of the test-takers, or in a live test center with other test takers. The 2023 exam is 100 questions, done in a single sitting of 4 hours long.To get the best results from this practice test, treat this full-length practice exam as if it was the real thing. Find a quiet room, and carve out a solid block of four hours where you will have total quiet, just like if you were taking the real exam. Turn off your phone and let friends and family know that you will be unavailable, because you are taking the time to practice for the CPC. Finally, try to complete the test in a single sitting. It's okay to take bathroom breaks, just like on the real exam, but try to eat about 2 hours beforehandPractice tests will help you get used to the length and material of the real CPCOne of the largest reasons students find the CPC exam challenging is because of the length of the exam. 4 hours is a long time to sit and answer test questions at one stretch!Taking a real, full-length practice test will help you get used to the length of the exam, and help you get your routine right for test day.Take this practice exam as if it was the real thing, and you won't be surprised on test day - you'll be a seasoned pro!How many times can I take the practice exam?As many times as you like!For those of you who want to do your absolute best, we recommend taking 3-5 different practice exams over 2-3 months. Taking 3-5 exams will help get you intimately familiar with the structure of the CPC, and let you know what material you need to study. You'll have plenty of opportunity to study in between exams, and on test day, the real CPC will feel like old hat.Take this practice test as many times as you like, and be sure to check out the rest of our CPC exam preparation materials as well.Don't forget to use your CPT®, ICD-10-CM, and HCPCS Level II code books!100 Questions (Suggested time: 4 hours) Haven't completed the interactive CPC practice exam? Scroll up to complete the test! Once you've completed, you'll see your score and a breakdown of questions here, to help you see where you did well, and where you could improve.As always, we're cheering for you! Congrats on finishing your first CPC practice exam! Every bit of effort you put in is going to help you score better and continue on the path of becoming a medical billing and coding professional.Once you've finished the test, take five minutes to reflect on what was easy for you, what was challenging this time, and where you could improve. What was easy for me:What was challenging for me:What I could improve next time:Think about types of questions that were hard, what questions you spent your time on, and any material that you need more practice for?Try our list of 800+ Free CPC Practice Exam Questions, or check out the rest of our 100% free CPC practice exams and mock tests. You got this!Or: Feeling ready for the real thing? Start picking your date to take the Official Certified Professional Coder Exam and get certified by the AAPC.We're cheering for you!
