Sign up for free on dict.cc, a unique online service where everyone can contribute to the French-English dictionary by adding and verifying translations. This allows users to download and use the vocabulary database for free. Beyond searching for translations or asking questions in the forum, you can also improve your language skills with our vocabulary trainer. Note that while efforts are made to ensure accuracy, no one is perfect, so please report any errors you spot. We're excited about our recent milestones - Italian-English has hit 30,000 translations and Ukrainian-German has reached 30,000 as well! Congratulations to our contributors for their great work. As a result of this success, we're now releasing the Ukrainian-English dictionary, and we'd love your help with its build-up. Our English-French dictionary has also reached an impressive 200,000 translations, thanks to our dedicated team led by Puchenuau. We've added a powerful tool called "missing entries" that helps advanced contributors and can be found in the Contribute section. This allows you to easily enter important words into any language pair, making it easier to contribute to our dictionary. The WordReference English-French Dictionary is a dynamic resource with over 95289 terms and 228678 translations, offering a vast repository of French-English vocabulary. This dictionary has expanded to include thousands more terms through its forum section, providing an additional layer of translation assistance. It boasts 182000 words and phrases with 247000 translations in the Collins English-French Dictionary. Furthermore, WordReference features a comprehensive verb conjugator, allowing users to input a word and access its corresponding translations.
