I was trying to learn anything without guru is quite difficult. Mr. Gourav is a perfect guru who teaches all the guitar playing skills with ease. His almost 2 decades of experience in guitar playing reflects genuinely when he explains anything related to the guitar. It's been 6 months since I've joined this elite fraternity and I am so happy and looking forward to improve my guitar skills with the perfect guru. I started my online guitar lessons with Mr. Gourav as a beginner and so it has been a very nice experience. Mr.Gourav understands my strengths and weaknesses well and accordingly adjusts the learning sequence. To keep the lessons and practices interesting, he ensures to not only focus on theory with chords, leads etc and instead keeps including various song parts in every lecture. I would highly recommend Gourav sir to learn Guitar at any level. Great Teacher who knows exactly what you need to work on to improve fastI started taking online guitar classes with Mr. Gourav for the past month and a half. It has truly been a great experience. I knew a few chords beforehand but was struggling to move my guitar learning forward. He helped me understand the basics, from strumming to breaking down how I can catch the rhythm. He has also pushed me to learn singing along with playing the guitar and I cannot thank him enough for it. If you want to either start or continue your guitar journey I cannot recommend him enough! My experience in this online guitar classes has been outstanding! I have gained tremendous knowledge, not only in theory, but also practically. From being a complete beginner, I can now (after a few weeks) already play some songs on guitar. The teacher has played a major role in my improvement because he explains me very well and helps me whenever I am baffled. I started learning from Gourav remotely 8 months back and the experience has been great!! He starts teaching by assessing the current level of the student and teaches via a good mix of theory and songs of incremental difficulty which helps you both enjoy and learn in parallel. He also introduces you to new forms of music and songs which further increases interest.
