Mx3 air mouse user manual

Given text here: This document is a user manual for a 2.4G Air Mouse & Keyboard combo. It includes info on the device's specs, function keys, and how to use it. The guide also explains how to pair the mouse and keyboard with your device, as well as details about the IR remote buttons and their setup process. Additionally, the document provides an overview of the wireless keyboard's features and specifications. The 2.4G Air Mouse & Keyboard is described in a user manual that includes a product diagram. The guide explains how to connect the device using a USB dongle. A downloadable PDF or TXT file is available for the document, which has been found useful by some users. It features a multi-axis design that combines the functionality of a mouse, remote control, and keyboard. This device can be used with various devices, including Android TV Boxes, projectors, smart TVs, IPTV systems, networked set-top boxes, mini PCs, and more. The user manual notes that it's simple to use - just plug in the device and start playing.
