Since prehistorical times, stick figures have been some of the first art forms. Because of their simplicity, they have remained one of the most popular drawing styles. Today, people of all ages and races use them to convey messages, transcending language, location, and time! This simplicity is the reason why kids love to draw stickmen. Even the most intricate designs can be simplified to a few lines, curves, and dots. Naturally, as young artists gain more skills, they add different details and accessories to their simple drawings. However, the charm of the stick figures stays timeless, appealing to people of all ages! The modern Internet age brought the stickman into the spotlight at the same time as the dawn of animation. As you can imagine, thanks to their simple design, stickmen became some of the first videogame heroes. In the 2000s, entire sites were dedicated to stickmen games, encouraging users to submit their own. As a result, stickmen are part of the internet and gaming culture, allowing anyone to tell a story. Even those with limited drawing talent or animation skills can use them to bring their vision to life! Focus on gameplay, not graphics! What makes this category exciting is that it focuses on gameplay. While modern games can feature impressive graphics, they can take up a ton of memory and a high-tech PC. On the other hand, video games featuring stickmen rely on gameplay instead of flashy visuals. Therefore, there are no bulky downloads necessary and no PC requirements. As a result, anybody can play them. How cool! Besides being widely accessible, stickman games are also kid friendly! Sometimes video games can be graphic or violent. However, that's not the case with the simple stickmen. Therefore, fighting and adventure games are suitable for all ages, without blood or gore. Stick figures make anything look less intimidating! Besides, the bare-bones design allows young viewers to develop their imagination. Kids love this game category because it gives them great freedom to fill in the details. With only a few features sketched in, the hero of their favorite game could be anyone! However, simple doesn't mean boring! A few more lines and shapes can create a new hero, animal, or background. How cool! Above all, variety makes this category stand out.
