IndiaWebsiteiimcat.ac.in The Common Admission Test (CAT)[1] is a computer based test for admission in graduate management programs. The test consists of three sections: Verbal Ability and Reading Comprehension, Data Interpretation and Logical Reasoning, and Quantitative Ability. The exam was taken online over a period of three hours, with
one hour per section. In 2020, due to the COVID-19 precautions, Indian Institute of Management started this exam and use the test for selecting students for their business administration programs (MBA or PGDM)
The test is conducted every year by one of the Indian Institutes of Managements (IIMs) based on a policy of rotation. [citation needed] In August 2011, it was announced that Indian Institutes of Technology (IITs) and Indian Institutes of Technology (IITs) and Indian Institute of Science (IISc) would also use the CAT scores, instead of the Joint Management Entrance Test (JMET), to select
students for their management programmes starting with the 2012-15 batch.[3] Before 2010, CAT was a paper based test conducted on a single day for all candidates. The pattern, number of questions and duration have seen considerable variations over the years. On 1 May 2009, it was announced that CAT would be a Computer Based Test starting
from 2009. The American firm Prometric was entrusted with the responsibility of conducting the test from 2009 to 2013.[4] The first computer based CAT was marred with technical snags.[5] The issue was so serious that it prompted the Government of India to seek a report from the convenor.[6] The trouble was diagnosed as 'Conficker' and 'W32
Nimda', the two viruses that attacked the system display of the test, causing server slow down.[7] Since 2014 onward, CAT has been conducted by Tata Consultancy Services (TCS). CAT 2015 and CAT 2016 were 180-minute tests consisting of 100 questions (34 from Quantitative Ability, 34 from Verbal Ability and Reading Comprehension, and 32 from CAT 2016 were 180-minute tests consisting of 100 questions (34 from Quantitative Ability, 34 from Verbal Ability and Reading Comprehension, and 32 from CAT 2016 were 180-minute tests consisting of 100 questions (34 from Quantitative Ability, 34 from Verbal Ability and Reading Comprehension, and 32 from CAT 2016 were 180-minute tests consisting of 100 questions (34 from Quantitative Ability, 34 from Verbal Ability and Reading Comprehension, and 32 from CAT 2016 were 180-minute tests consisting of 100 questions (34 from Quantitative Ability, 34 from Verbal Ability and Reading Comprehension, and 32 from CAT 2016 were 180-minute tests consisting of 100 questions (34 from Quantitative Ability, 34 from Verbal Ability and Reading Comprehension, and 32 from CAT 2016 were 180-minute tests consisting of 100 questions (34 from Quantitative Ability).
Data Interpretation and Logical Reasoning.[8] CAT 2020 onwards, the exam duration has been reduced to two hours, with 40 minutes allotted per section.[9] The candidate must satisfy the below specified criteria:[10] Hold a bachelor's degree, with not less than 50% or equal CGPA (45% for Scheduled Caste (SC), Scheduled Tribe (ST) and Persons
with Disability (PWD)/Differently Able (DA) classification) The degree should be granted by an act of the universities consolidated by an act of the university under Section 3 of the UGC Act, 1956, or possess an
equivalent qualification recognized by the Ministry of HRD, Government of India. Competitors appearing for the final year of bachelor's degree prerequisites and are anticipating results can likewise apply. If selected, such applicants will be permitted to join the
program temporarily, only if they present a certificate most recent by June of next year in which the exam is held, from the principal/registrar of their college/institute (issued at the latest 30th June of that year) expressing that the competitor has finished every one of the prerequisites for acquiring four-year or three-year college education/identical
capability on the date of the issue of the issue of the certificate. The Common Admission Test (CAT), like virtually all large-scale exams, utilizes multiple forms, or versions, of the test. Hence there are two types of scores involved: a raw score and a scaled score. The raw score is calculated for each section based on the number of questions one answered correctly,
incorrectly, or left attempted. Candidates are given +3 points for each correct answer and -1 point for each incorrect answer, no negative marking for TITA (Type in the Answer) questions. [11] No points are given for questions that are not answered. The raw scores are then adjusted through a process called equating. Equated raw scores are then
placed on a common scale or metric to ensure appropriate interpretation of the scores. This process is called 'scaling'. The change in the total number of questions and number of questions per section which is the verbal ability and
reading comprehension contains 24 questions, further bifurcating 16 questions of reading comprehension and 8 questions of verbal ability, then next section is of quantitative ability which contains 22 questions making it to 66 questions in total. CAT is
conducted in three slots/sessions (Morning Slot, Afternoon Slot, Evening Slot).[12] Source:[13] Three 40-minute sessions will be held to conduct the CAT 2024 exam. A total of 120 minutes will be given. The CAT exam pattern will consist of Multiple Choice Question and non-multiple-choice questions or TITA {Type In The Answer} questions. The three
sections in the exam are as follows: Verbal Ability & Reading Comprehension (VARC) Data Interpretation & Logical Reasoning (DILR) Quantitative Ability (QA) -> 24 questions are asked in VARC (8 Questions from VA and 4 RCs each asking 4 questions in 5
sets changing number of questions from CAT 2023. -> 22 questions are asked in QA, 22 independent questions are asked from topics such as Arithmetic, Algebra, Geometry, Number System & Modern Math. There will be a maximum score of 204 marks and 68 total questions in the CAT exam pattern. Candidates cannot jump between the three
sections while taking the exam. The order of the sections is fixed: VARC -> DILR -> QA. In CAT 2024, a question of slot 2 in VARC was challenged by students and educators but IIM C did not accept any changes. One candidate took the matter to the court still the challenge was not accepted. IMS, a renowned coaching institute claimed that one of
their faculty, Sayandeep Chaudhari, scored perfect 204/204, but after the result it was found that he lied about his score, later IMS took down all the social media posts about him. The number of registrations in the past years are shown in the following chart:[14] Year No. of candidates Registered No. of candidates Appeared[15] 2005[16] 170,000

 ExamIndiaMBA If you're one of those students who has recently completed their undergraduate programs and looking to build a career in the management stream, then the CAT exam must be something you'd be hearing now and then. CAT exam for the graduate programs and looking to build a career in the management stream, then the CAT exam must be something you'd be hearing now and then.
course in the management stream. We here look into the details about the course down below. Read along. What is CAT exams as aforementioned are the Common Admission Test that marks the eligibility for the MBA course in India. The exam is regulated and managed by IIM. The exam is a direct succession to the previously used Joint
Management Entrance Test that was used before 2011 by the IIM's to test the eligibility for their MBA programs. The exams are governing the next year and so on. CAT exam is a computer-based exam and consists of three different sections to assess the
student's knowledge and skillset. The three sections of the exams are Verbal Ability and Reading Comprehension, Quantitative Ability and Data Interpretation, and Logical Reasoning. The exam runs for 3 hours. The course is an entrance test for IIM and other management institutes offering MBA programs across India. The exams are held once a year
and are held across India at various centers. Eligibility for CAT Exam As is the case with the entrance exams of any field, CAT exams also have a set of rules that needs to be mandatorily followed to become eligible for the test. The eligibility marks the ability of the candidate for the registration process after which they can appear for exams and clear
it to pursue an MBA degree. Here are the eligibility criteria for the CAT exams. Any candidate willing to appear for the CAT exam needs to have cleared their bachelor's degree with at least 50% marks or equivalent CGPA. If the candidate belongs to SC/ST or is Persons with Disability or Differently able then they have the leverage of 45% marks or
equivalent CGPA in the bachelor's program. The candidate should have pursued their bachelor's program from a recognized university or institute. The definition of a recognized institute or university or institute to be
recognized by the Ministry of HRD. Any student who is into their final year of bachelor's program can also appear for the CAT exam on a provisional basis. For this, they need to provide their valid certificate and credentials along with the letter from the college or university recognizing the student's final year of bachelor's program. CAT Exam
Syllabus CAT Exam doesn't have a predefined or pragmatic syllabus. It rather is a combination of various subjects like Mathematics, English, and logical reasoning. The syllabus can be better understood if we break it into the three different parts of the exam, i.e. Verbal Ability and Reading Comprehension, Quantitative Ability and Data Interpretation
and Logical Reasoning. Here's an overview of the syllabus for these three different parts of the exam: CAT Verbal Ability and Reading Comprehension: This part comprehension: This part comprehension. The pattern involves a comprehension passage with a set of questions thereafter. It also has some grammar-related questions. CAT Data
Interpretation and Logical Reasoning: This part of the syllabus involves the sections of logical understanding and interpretation. It features questions from a wide variety of fields and topics. It seeks to find out the logical understanding level in a person. Along with it, there are also data interpretation questions that have data cases, graphs, and more
CAT Quantitative Ability: This part involves the quantitative aptitude-related questions from Mathematics. This includes a variety of questions of Verbal Ability 10 questions of Verbal A
Reading Comprehension 34 questions of Quantitative Ability 32 questions of Data Interpretation and Logical Reasoning Furthermore, the exam pattern and the scaled score pattern. The raw score is based on the principle of awarding marking for
the number of questions answered by the student. A correct answer will fetch a marks while an incorrect answer will fetch a negative 1 marks. The scores at the end are compiled and tallied via equating process. Thereafter the scores at the end are compiled and tallied via equating process.
the process of scaling occurs to find the final qualification. Age Limit for CAT Exams Apart from the eligibility criteria in their exams. But the CAT exams do not have such restrictions on the students and allows students to register and appear for the
exams regardless of their age. However, there is one small caveat in this. Generally, as we also talked about above, a person needs to have completed their bachelor program or be in their final year of bachelor program for eligibility into CAT exams. Some bachelor program or be in their final year of bachelor program or be in their final year of bachelor program for eligibility into CAT exams. Some bachelor programs have a 2-year course duration with equal credits as of 3 years. Though
once you clear the CAT exams you will become eligible for IIM and other management institutes, IIM requires a student to have undergone 3 years one. Fees for CAT Exams CAT exams have set a fee per the need of time for the conduct and governance of the exams. The fees are divided
into two categories mainly to allow students from all backgrounds entry into the program. Here are the different fees based on the category: INR 2000 SC/ST/PWD: INR 1000 The designated fees should be paid at the time of the registration of the application by the student. The fees can be paid via any online
payment mode. The registration process of CAT Exams Any student who is willing to opt for the exams needs to complete the application or the registration process to become eligible to appear for the exams. For this, they have to go through the registration process to become eligible to appear for the exams needs to complete the application or the registration process to become eligible to appear for the exams.
